Ventajas

Máquinas virtuales
Virtualización de hardware

Contenedores
Virtualización del sistema operativo

Contenedores en Azure

Docker

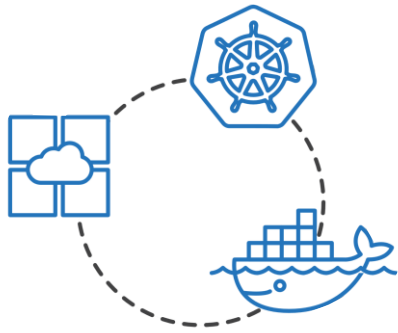

**Azure
Container
Instances**

**Azure
Kubernetes
Service**

Azure Container Registry (ACR)

Manage a Docker private registry as a first-class Azure resource

Manage images for all
types of containers

Use familiar, open-
source Docker CLI
tools

Azure Container
Registry geo-
replication

Demo

- Docker Desktop
- Pull container
- Create Azure container registry
- Push container – Azure Container Registry
- Provisionar container en Azure

Azure Container Instances

Zero-downtime upgrades

Batch workflows

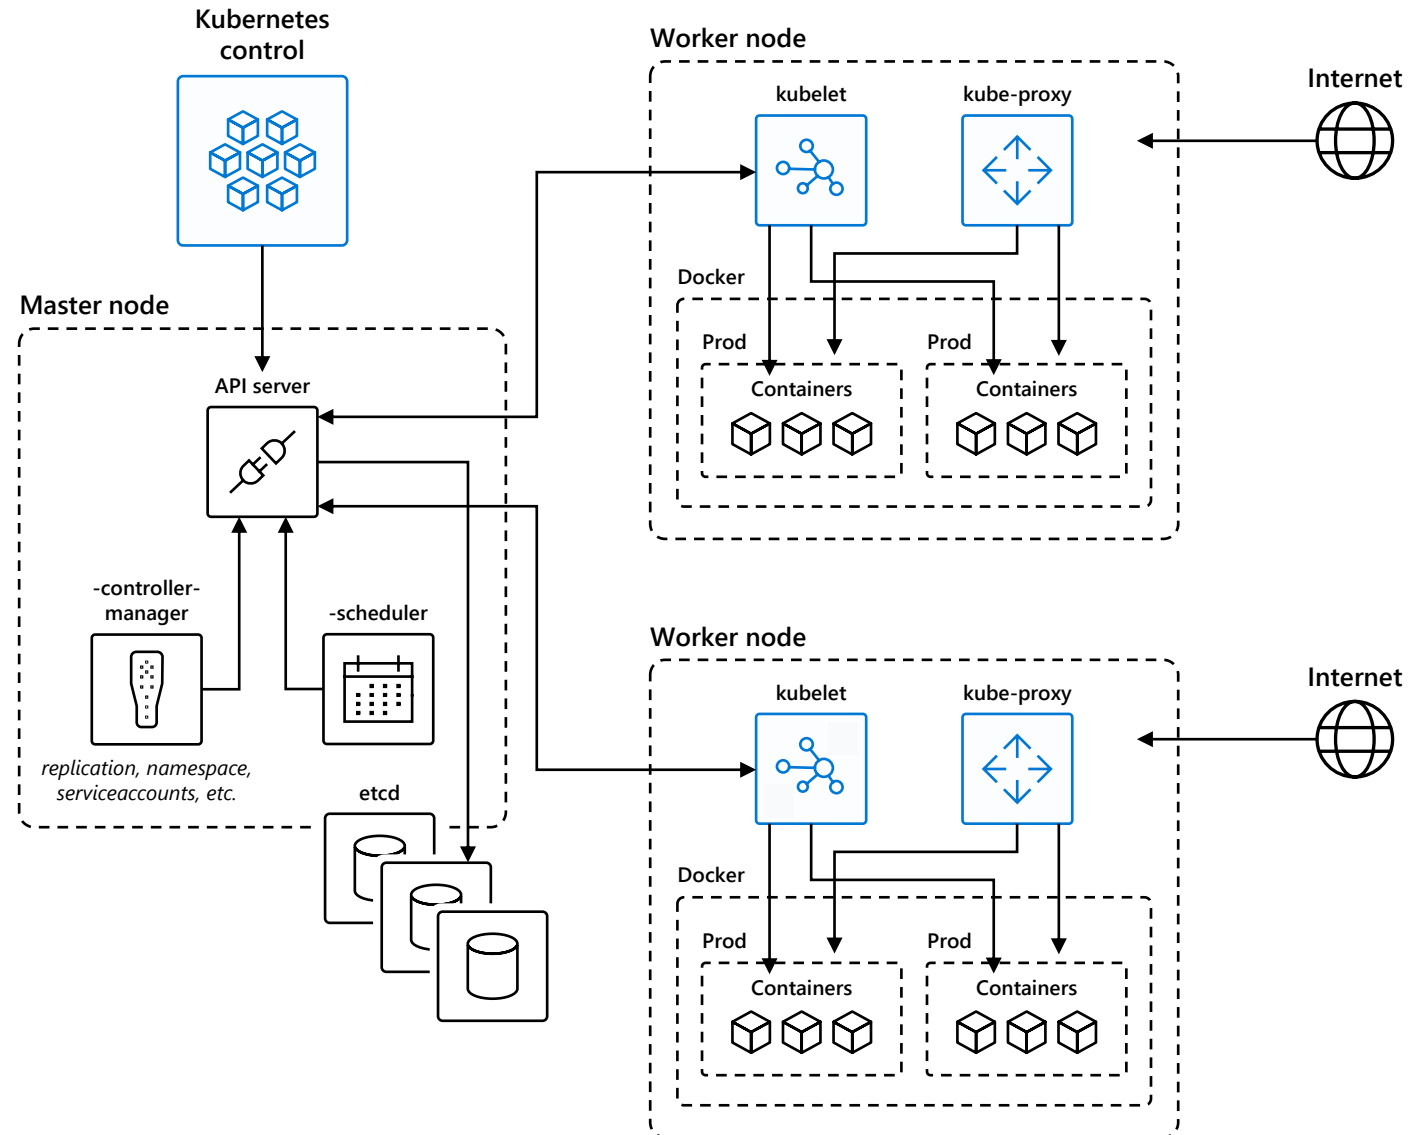

Service discovery

Integrated load balancing

Auto-scaling

How Kubernetes works

1. Kubernetes users communicate with API server and apply desired state
2. Master nodes actively enforce desired state on worker nodes
3. Worker nodes support communication between containers
4. Worker nodes support communication from the Internet

Keep learning

- **Microsoft Learn** : Containers in Azure : <http://bit.ly/2ZvrmB1>
 - Build a containerized web application with Docker
 - Build and store container images with Azure Container Registry
 - Run Docker containers with Azure Container Instances
 - Deploy and run a containerized web app with Azure App Service
 - Introduction to Azure Kubernetes Service
- **Step by step hand on labs:** <https://bit.ly/3apUAGQ>

50 days from zero to hero with Kubernetes

Kubernetes is taking the app development world by storm. Already, 77% of companies with more than 1,000 developers that run Kubernetes are using it in production.¹ Kubernetes is shaping the future of app development and management—and Microsoft wants to help you get started with it today.

This guide is meant for anyone interested in learning more about Kubernetes. In just 50 days, you'll understand the basics of Kubernetes and get hands-on experience with its various components, capabilities, and solutions, including Azure Kubernetes Service. Go from zero to hero with Kubernetes to set your company up for future app development success.
